DIVERSITY IN THE MEDIA: A CHART BOOK FOR SELECTED INDUSTRIES

U.S. EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

2004

U.S. Equal Employment Opportunity Commission
DIVERSITY IN THE MEDIA

PREFACE

This chart book responds to the public's request for data regarding diversity in employment among some of the key media industries in the nation. The data provided here can be used by employers in these industries to evaluate their employment practices. This effort is consistent with the emphasis on proactive prevention in the Commission's *Five Point Plan*. These data come from EEO-1 reports filed in 2002 and information for the three industry groups are based on the North American Industrial Classification System. This publication provides a brief graphical overview of the three industry groups:

- Newspaper/Periodical/Book/Database Publishers
- Radio and Television Broadcasting
- Cable Networks and Program Distribution

Graphs are followed by data tables displaying detailed employment statistics for each of these industry groups nationwide and for the ten most populous metropolitan areas.¹ The areas are, in order of population: New York, Los Angeles, Chicago, Philadelphia, Dallas, Miami, Washington, Houston, Detroit and Boston. Data regarding these most important "markets" seem particularly important in these industries. (Note that, in some metropolitan areas, it was not possible to provide data for each industry group due to confidentiality restrictions.)

The EEOC encourages readers to utilize this chart book as one resource ensuring that the diversity of America's workers is effectively utilized in the industries examined.

DIVERSITY IN THE MEDIA

EXECUTIVE SUMMARY

- Newspaper publishing and broadcasting have a similar proportion of employees of color; cable networks and distributors show greater diversity in this respect.
- Women and men of color are similarly employed.
- African American employment is higher in the cable industry than in the other two media industry groups. Hispanic employment is also higher in the cable industry but the difference is not as dramatic.
- Asian American employment is relatively uniform with slightly lower employment in broadcasting.

Newspaper/Periodical/Book/Database Publishers (Publishing)

- For both African Americans and Hispanics the proportion of professionals and officials and managers are similar but there are more than twice as many Asian professionals as Asian officials and managers.
- African Americans and Hispanics are more highly represented in the lower paying job groups.

Radio and Television Broadcasting (Broadcasting)

- In broadcasting, in contrast to publishing, Asian employment as officials and managers is similar to their employment as professionals. Larger disparities in employment between the two job groups can be seen for African Americans and Hispanics.
- African American and Hispanic employment is fairly similar in all job groups except operatives and service workers with a much higher proportion of African Americans.

Cable Networks and Program Distribution (Cable)

- As in the publishing industry, the disparities between Asian American employment as officials and managers and

- as professionals is much greater than those observed for other minority groups.
- While Hispanic employment as officials and managers is consistent between the broadcasting and cable industries, African American employment in this job group increases from 7.7 percent in broadcasting to 10.9 percent in the cable industry.

Top Metropolitan Areas and Media Industries for People of Color

- When examining the top ten metropolitan areas and examined media industries, the top five areas and markets (based on percent of employment) for people of color with respect to total employment are: Miami and cable (70.5 percent), Miami and broadcasting (61.9 percent), Los Angeles and cable (50.5 percent), Washington, D.C. and cable (47.1 percent) and Los Angeles and publishing (46.1 percent).
- The top five areas for women of color with respect to total employment are: Miami and broadcasting (26.0 percent), Miami and cable (25.6 percent), Los Angeles and publishing (20.2 percent), Washington, D.C. and cable (20.2 percent) and Los Angeles and cable (19.5 percent).
- The top five areas for people of color with respect to employment as officials and managers are: Miami and cable (56.5 percent), Miami and broadcasting (46.1 percent), Houston and broadcasting (31.7 percent), Los Angeles and cable (30.7 percent) and Miami and publishing (28.4 percent).
